

COMMERCIAL VEHICLES REBUILDERS ASSOCIATION MALAYSIA

The Commercial Vehicles Rebuilders Association Malaysia (CVRAM) forms an alliance of truck rebuilders who seek to network amongst industry members and government alliance. Its members consist of rebuilders who practice self-regulation in line with best manufacturing practices and governance.

Members of the CVRAM obtain their supplies of used trucks from right hand drive countries, making its rebuilt trucks viable vehicles for Malaysian consumers. CVRAM members only use authoritative sources with vehicle catalogues. Trucks are rebuilt according to original manufacturers specifications ensuring marketability and safety.

CVRAM works closely with government authorities, MITI and JPJ for approvals to carry out rebuilding of commercial vehicles.
